

Reducing downtime by using UpTime.

The ultimate timesaver for upstream asset applications.

- Biodegradable
- Non-Toxic/Non-Corrosive
- Replaces Traditional N₂ Purging and Water Flushing
- Displaces Water-Based Products and Hazardous Cleaners
- High Solvency Strength

UpTime is a proprietary product that safely and effectively penetrates, dissolves and removes heavy crude oil, asphalt, resin, wax, bitumen, lubricants and other organic substances associated with upstream assets.

- Significantly reduces cleaning time
- Applied via RTI's Patented Vaporganic® process
- Ideal for use in a variety of turnaround and routine maintenance applications
- Neutral pH
- Increases Uptime
- Reduces Manpower Requirements
- Eliminates Personnel Exposures
- Expedites Inspection and Repairs
- Reduces Waste and Flaring
